

Remarks

The present invention is directed to methods of treating a human with Alzheimer's disease. Claims 1-18 have been cancelled. Claims 21-27 have been added. Claims 19-27 are currently pending.

Restriction Requirement

In the Restriction Requirement dated September 3, 2008, The Examiner has required election to one of the following groups of claims for examination.

I) Claims 1-9, drawn to a composition comprising supramolecular antigenic constructs.

II) Claims 10-18, drawn to a method for inducing an immune response comprising the administration of supramolecular antigenic constructs.

III) Claims 19-20, drawn to a method for treating Alzheimer's diseases comprising administration of supramolecular antigenic constructs.

In response to the Restriction Requirement, Applicant elects Group III directed to methods of treating Alzheimer's disease without traverse. The Applicant reserves the right to file divisional applications to the remaining non-elected groups listed above.

Conclusions

Applicants submit that the response herein provides a complete response to the Restriction Requirement dated September 3, 2008.

If the Examiner believes there are other issues that may be resolved by telephone interview, or that there are any informalities remaining in the application that may be corrected by Examiner's Amendment, a telephone call to the undersigned is respectfully solicited.

No additional fees are believed due, however the Commissioner is hereby authorized to charge any additional fees that may be required, or credit any overpayment of fees to Deposit Account number 11-0980.

Respectfully submitted,

/Stephen C. MacDonald, Ph.D./
